JACKPOD TRI 1

GENERAL

Art.Nr:	JP-011-1	Standards:	CEN/TS 16415:2013, EN 795-B:2012
GTIN:	4030281203520	Net weight:	16.66 kg
E-class number:	40-02-01-09	Gross weight:	16.66 kg
Customs tariff number:	76109090		

DATASHEET

JACKPOD TRI 1

Flexible fall prevention for working in confined spaces is now easier than ever with the tripod systems. The portable and stepwise adjustable systems require only a small working base area and are easy to transport and store thanks to their low weight and volume. High-quality finished aluminium and galvanised steel offer high ageing resistance. In two versions, the JACKPOD TRI covers the areas of the vertical entry with a variable height adjustment from 1.2 to incredible 3.1 meters. Even very wide entries can be covered. When using a winch, for example the JACKPOD WINCH 1, the retention function of a person is already in place and a descent into deeper work environments is no longer a risk. - Available in two versions - Variable height adjustment from 1.2 to 3.1 m - Easy transport due to low weight and volume

FEATURES

Anchor point type:	Mobile anchor point
Application areas:	Working in confined spaces, Rescue
Colour:	Red
Maximum lifetime:	10 years

MATERIAL

Material:	Aluminium, Steel
